Have \$1,200,000 more, making in all \$5,690,000. This would make his road cost over \$30,000 per mile. His Lebanon branch will not have cost much less when completed.

We think then, that it is fair to assume that the Memphis branch road will have cost, when completed \$30,000 per mile, especially if it is built by the sale of bonds, as Gov. Helm proposes. DAILY COURIER. expect anything else when we go to work to start a railroad more than an hundred miles from home. TUESDAY, ..... SEPTEMBER 14, 1858.

Reading Matter on every page.

The Memphis Branch Railroad-Its Cost. Last Friday morning Gov. Helm sent us a com nunication for publication in the Courier. After reading it we declined publishing it. It has since appeared in the Democrat, and those who had the courage to read it must have appreciated our reasons for declining it. Besides being discourteous nough to insure its rejection, it was an embodient of views upon railroad matters entirely too roneous for the Courier, with its thousands of subscribers and readers, to be made the medium of their dissemination,

pon his Memphis branch were intended to ridicule him personally. In this he is mistaken.-We may suggest, however, that if he thinks, and acts, and writes, and speaks, as though he himelf were absolutely and unequivocally the Louisbranches, it cannot be wonderful that he should eel that he is assailed when the management of the road, or any of its branches, is attacked. As to what he says of the Courier being reckless of the interests of Louisville, we shall leave to a decision by the people when they make up their ninds upon the questions now at issue between the Courier and the president of the L. & N. R. R. If we do not show that we are the friends of Louisville, and that he is the enemy, then we shall cease to write on the subject of his proposed Memphis branch.

There are many things in the Governor's long etter, which we might take up and show to be ery ridiculous to be put in print by the president f a railroad company which has been intrusted with the management of millions of dollars, but we shall confine ourselves to points which touch the main issue between us. He contends that the ordinance recently passed by our city council, appropriating \$300,000 to his Memphis branch railroad, is right, and that it should be ratified by a vote of the people. We say that the ordi nance is wrong, and it should be voted down when abmitted to the popular vote. We contend that he cost of this Memphis branch has not been fairly represented by Gov. Helm, that the suggested mode of raising the means to build it is wrong and that the danger of other railroad connections which he holds over our council and our people, to terrify them into making the subscription of \$300, 000, is the very thing we want to come to pass,-We shall discuss the first of these proposition o-day, and defer the remaining for two succeeding articles. We have not the space to go over the whole subject in one issue of our paper, nor have we the desire to publish, at once, so long an arti-

le as would be necessary. That there may be no mistake about the matter

e quote Gov. Helm's own words as to the cost of ais branch road. Here they are: ost of the road, which he puts at \$980,000. That, se says, is a full estimate, including everything to make a complete road—such as fencing, ballastng, equipment, a large sum for land, damages, nd for contingencies; and concludes by saying he road may be put to running for one hundred housand dollars less than that estimate. It was made some two years since, when iron and the price of labor was high, and our countrymen not iliar with railroad work. I submit, therefore your patrons, whether your assumption as to est, is more reliable than a calculation made by competent mar, who has been over every foot of ne ground. I submit to your sober second ought, whether, when the fate of a great enter-ise, carrying in its folds the destiny of the city which you are a citizen, is at stake, if it is not

Now, we state that Charles A. Olmstead never made any such estimate of the cost of this road. The estimate is Gov. Helm's, and not Olmstead's For the information of Gov. Helm, and the City Council, and the people of Louisville, we will state what Charles A. Olmstead did do in this matter. He did make a survey of this road and an estimate of the cost. He ran three distinct ines, the first of which left the Louisville and Nashville railroad about two miles south of Bowling Green, and passing through Russellville, terminated at the State line, near Hardinsville. The second left the same point of departure from the main stem, and went in a straight course through the center of Logan county to the terminus of the Clarksville road. The third left the main trunk at Franklin, and traversed the southern part of Logan to the same terminus. The first of the routes is 48 miles in length, the second 45, and the third 34. The first, according to Mr. Olmstead's estimate, would cost \$971,462, the second

960,361, and the third \$756,542. But, in this estimate Mr. Olmstead took no acount of the rolling stock. He expressly says so n his report. Gov. Helm, however, while quoting his engineer, and charging us with reckless atements, does not note this fact. He is for oes this look like he understands his business? s he not a little reckless himself, especially for a resident of a railroad, who assumes that none

nows so much as he about railroad matters? Without in the least intending to disparage the nerits of Mr. Olmstead as a competent engineer, we must be permitted to say that we think the road will cost more than his estimate. Allowing a reasonable amount for rolling stock to be added to his estimate, the branch road would cost about the delegates you have named won't feel at all \$22,000 per mile, or \$1,056,000 for the whole. We do not believe that it can be completed for that sum, especially if built by the sale of bonds. The country over which it would pass is not the noothest in the world, and Mr. Olmstead's estimates, like those of other engineers, looks to the starting of the road rather than to its completion Many things will occur to swell his estimate, like that of the builder of a house who pays double what he expected when he saw his house completed on paper. Engineers don't usually, in the out-

set, tell all the cost of a railroad. It may not be amiss for us to take into consideration the actual cost of other roads that were started very cheap on paper. There were, on the first day of January last, 26,210 miles of completed and running railroad in the United States, the whole cost of which was \$920,000,000. This shows an average cost of \$35,000 per mile. At the same time we had in Kentucky between 300 the timbers of the bridge separating, precipitated and 400 miles of completed railroad, which cost an average of more than \$35,000 per mile. The an average of more than \$35,000 per mile. The Louisville and Frankfort road was the cheapest we ever built, and its cost was low, because i was not started on bonds or credit, as Gov. Helm proposes to initiate his Memphis branch, and befavorable.

The subscriptions to his road up to this time amount to \$4,490,000, and he tells us that he must mile. His Lebanon branch will not have cost Saturday morning with something good for the

the sale of bonds, as Gov. Helm proposes. Discounts, salaries, and accidents, not provided for in Mr. Olmstead's survey, will run his estimate up to that sum per mile. The builder will so alter the plan of his house as to compel the contractor to raise the price upon him. The 48 miles of road will cost \$1,440,000 in spite of Gov. Helm's and Mr. Olmstead's assertions.

How, then, does Gov. Helm propose to raise this sum of money? He very innocently tells us that Logan county will give \$300,000 in her bonds, and as a skillful Dentist.

We invite the public attention to our new style of Teeth. For beauty, cleanliness and natural appearance, more in subscriptions. He thus has \$400,000, and calls upon Louisville to give \$300,000 more to complete the road. All that he proposes to raise, therefore, is \$300,000 Logan county bonds, \$300,000 Louisville city bonds, \$100,000 private subscriptions, and \$200,000 first mortgage bonds, making a sum total of \$900,000 which, when discounted, as such securities always have been and always must coatinue to be, under such financiering as has heretofore characterised this road, cannot net more than \$700,000. This, according to our calculation, is just about half enough to

a railroad more than an hundred miles from home. among a people who can't, or wont, start it themselves. If our advice is taken, however, a different result will be attained. We will show tomorrow, how the money may, and should be raised to build this road, and if our advice is taken, the road will be built in a proper way. We are opposed to casting \$300,000 into a gulf which we ee yawning for the same, or double the amount, while we are told that the \$300,000 will fill it up. We can see with our own eyes, and we are not to be deceived by those who pretend to see differently. We cannot be mistaken when we say that if Louisville gives this \$300,000 she will have to give \$300,000 more to save the first from loss, and then give another sum to save the first two, from being a total loss.

The Governor thinks that our previous articles | The Kentucky Mechanics' Institute-Sixth Annual Exhibition-Historical Sketch-Interesting Facts, etc., etc.

The sixth annual exhibition of our Kentucky Mechanics' Institute, commences this evening at the hall on the northeast corner of Broadway and rille & Nashville railroad, together with all of its | Fourth streets. During the winter and spring of 1853, there appeared in the columns of the Louis ville Courier a series of editorial articles upon the mechanical and manufacturing interests of this city. Prior to that time, there had been no oncerted action among our artizans, and nothing was positive known of what we were capable of producing. Direction and impulse, however, being given to the movement in encouragement of home manufactures, an association was organized, a charter obtained, and the Kentucky Me chanics' Institute was actually created by the pubic sentiment which the Courier from day to day fostered and nurtured. The services of this paper in so important an enterprize were at that time duly recognized, and one of the editors, (W. D. Gallagher, Esq.,) was elected the first Vice President, to be soon elevated to the chief po sition in the Society. To his untiring industry, his great zeal and eminently practical talent, the Institute is indebted for the happy auspices under which its career began.

The first election of officers was held in May 53. Thos. C. Coleman was chosen President W. D. Gallagher, Vice President; F. W. Vogdes orresponding Secretary; A. P. Cochran, Recording Secretary, and Geo. Ainslie, Treasurer. In August Mr. Coleman resigned the Presidency, and Mr. Gallagher was elected his successor. The following gentlemen have since then occupied the office of President of the Institute: 1854, C. L. Stancliffe; 1855, C. L. Stancliffe; 1856, George Ainslie; 1857, George Ainslie; 1858, Wm. Kaye. The first exhibition was held in October, 1853 n the Farmers' Tobacco Warehouse, on Second street. It continued nineteen days, and was, we elieve, the most interesting ever given by the Institute. Over twenty-five thousand visitors atended at the hall during the three weeks, and the eccipts at the door were almost five thousand dollars. Dr. T. S. Bell delivered the introductory address, and Edgar Needham the closing. These Charles A. Olmstead, known to many of the citzens of Louisville, and it is only necessary to know him to appreciate his worth, did, under direction of the board, make an actual survey, and by instrumental test, made an estimate of the full tucky's progress in material and intellectual wealth. The names of the gentlemen who have addressed the Institute are:

INTRODUCTORY. VALEDICTORY. Edgar Needham, 1853, Dr. T. S. Bell, 1854, Hon. Wm. Preston, 1855, R. T. Ford, 1856, Wm. Atwood, 1857, Geo. W. Morris. Chas. D. Kirk.

The first year there were 419 members; 2d 175; 3d, 956; 4th, 881; and at present over 1,000. The library was procured by an arrangement with the city, in 1854, and has constantly grown in importance, interest, and value. Fully fifteen thousand volumes are annually circulated. It is now one of the es tablished institutions of Louisville, and has accomplished a vast work in organizing the manu facturing power of Louisville into a mint. It has before it a great mission for our city and State. and having watched with great solicitude its ear liest efforts, we bid it God speed on its progress toward the realization of the brightest dreams for Louisville and Kentucky.

Know Nothing Delegates.

The editor of the Journal, not long since, con fessed that the Know Nothing party was dead, and preached its funeral. His text was from the bible of the Metemsychosets, and he assured his appear in the form of Black Republicans. It seems, owever, from his paper of yesterday, that the dead have appointed ward delegates to nominate mpleting his railroad without locomotives, pas- a Mayor. The delegations are not full, but these are quite a number for the dead to have ap pointed.

Will the editor tell us who the alternates are in this case. Some of the delegates, whose names are published, are our best citizens, and it is plain that they won't serve in the nominating conven tion. Their names seemed to be used in this con nection for effect only, while the hardest of cases in the shape of alternates, will make the nomination. This trick won't do, Mr. Editor. Some of complimented by the position you have placed them in, and we will wager any amount that they don't serve. Some good for nothing alternate will stand behind the respectable names published and do the work with which the named delegates would scorn to be concerned.

State:

The united voice of the Democratic press throughout the State is raised in favor of Col. Wm. Preston, of Louisville, for our next Gubernatorial candidate. The selection reflects credit upon the appreciative powers of the Kentucky Democracy. We have nowhere in our ranks a limit steady heaven. As a cool headed Democracy. To the Citizens of Louisville: An illustrated cir.

cular, issued by direction and authority of the Printers' Union, has been presented to the journeymen mechanics of Louisville for their consideration and approval. While we are aware that the unfortunate difficulty which led to the publication of such a mass of falsehood and misrepresentation is a matter which cannot affect those not engaged in the printing business, we deem it proper and just to those who have been prompted, y considerations of honor and right, to act as hey have acted in this affair, to place the question at issue and the circumstances of the case in their proper light before their fellow-citizens, feeling that no other vindication is needed .-So far as regards the committee whose names are attached to the circular in question, permit us to say, we must look upon them with the contempt hey merit. They are mere tools in the hands of a body of men, the majority of whom have shown hemselves to be beyond the promptings and motive of right, and are beneath the notice and consideration of gentlemen. They have permitted their names to be attached to a thing which they erringly supposed will ruin the reputation and blight the prospects of men who have industry and discretion enough to know their duty and perform it, regardless of the opinions of those whose judgments are as weak and futile as their efforts will prove in their attempt to bring discredit upon men who have chosen to do justice to their employers without the sacrifice of a single right or permission of a single innovation upon their accustomed usages.

right or permission of a single innovation upon their accustomed usages.

The citizens of Louisville are familiar with the fact, no doubt, that a difficulty has long existed between the Printer's Union and the proprietors of the Louisville Courier, regarding the laws of the former and the practices of the latter. We do not intend to impose any detail of the original difficulty upon those who may read this circular. We are not willing to attempt a justification of either party in the premises. We do not approve altogether of the course Mr. Haldeman has pursued altogether of the course Mr. Haldeman has pursued towards the Typographical Union in former diffi-culties, but so far as regards the present affair, we ally and cheerfully exonerate the proprietors of

he Courier from any blame whatever.

To say to you that the issue made upon the face of the circular is shamefully false and foolishly set forth, is the most charitable disposition that we can make of it. The person who drew up that terrible document should have spent sufficient time in the presence of the committee to have been additional. earnad "what to put down," and not been per-nitted to violate the wholesome instruction of one mitted to violate the wholesome instruction of one who has said that the clown shall speak no more than is set down for him. It comes forth with the pretext that the abolition of work upon the Sabbath day is the object at which they aimed, and that the printers engaged in the Courier office who refused to cease work at the "bull of the Union" proved traitors to the "common cause." Falsehood was never more manifest. At a recent meeting of the Union, a law was established by which all matter designed for Monday's paper should be placed. lesigned for Monday's paper should be placed in type on Saturday, or as much thereof as practicable, the balance to be given to three compositors, who were to go to work on Sunday evening at 5 o'clock. In case there was more copy than could be set by these three hands, an extra force was to be called in, who were to receive double remuneration for all the work they performed either before or after 5 o'clock; while the three who were to go to work at the above e three who were to go to work at the above the three who were to go to work at the above hour were to receive no extra pay. Notwithstand-ing we cannot see why this difference between those who work regularly on the Sabbath, and those who are subject to be "called up," is made, to such an arrangement, if it had been presented in its proper light to the proprietors of the Cou-rier, no objections would have been made. We believe that all who are called approximate. believe that all who are called upon to perform any labor whatever upon the Sabbath day, wheth-er regularly or irregularly, should receive an ex-tra compensation for that loss of repose which he Sabbath so gratefully bestows. We regret that circumstances and the arrangement of the affairs of society are such as to require labor to affairs of society are such as to require labor to be performed upon the day set apart by the Crea-tor as a period of rest, and we hope to see the time when the printers shall be relieved from performing labor upon the Sabbath. By a sys-tematic arrangement we think it can be done.

nothing of the affair until an order came from the Union requiring them to "strike." To this order but little attention was given for some time, when finally a few of those who 'could be spared without any inconvenience, left their work, and did an unjust act to themselves and their families. There r could have been satisfactorily arranged had a sposition been exhibited upon the part of the nion to avoid a difficulty. Their action was ar-itrary, unjust, and uncalled for. A portion of ne names attached to this vindication voluntaritook upon themselves the obligations imposed by the Typographical Union—by every honorable means to support its provisions and its constitution, but never by dishonorable means. To have acted as the Union commanded in this affair, in our opinion, would have deen dishorable and unbeauting the dispute of marking We think approper and unjust course, would have been in-cting a permanent injury upon the organization Men who have no principle and less disthey desire to accomplish. Such has been the case in the present difficulty. We fully appreciate the regrets expressed, and the action taken by he sensible and conservative members of the Juion to defeat the vindictive schemes laid by the esigning, whose sole object it appears to us, has been to precipitate a difficulty upon the proprie-ors of the Courier and throw a large number of nen out of employment, whose places would have

been unscrupulously sought after by the very persons who were instrumental in making them yacant. Such things have been done in the hisorv of "strikes." tory of "strikes. Had there been any cause for a "strike" we would most readily have acceeded to the demands of the Union.

So far as the epithet "rat" is applied to us, we pronounce it a lie. The printers in the Courier of the command as high price for their labor

as those engaged in any office in the city, and when earned receive it without being subjected to annoyance. The money expended in getting up the pictures the Union designs distributing among the boys, could have been more beneficially bestowed upon some of those who have permitted themselves to be thrown out of employment. We are not opposed to Unions; we are in favor of them, and think them beneficial, but they should always be controlled by men of judgcircumstances surrounding this affair, will hesitate to pronounce in our favor, and commend the course

to pronounce in our laws, and commend the course, we have taken. We have pursued a course, we think, that is sanctioned by the dictates of honor between man and man, and the threats of an impotent and foolish malice, cannot shift us from our position, or make us do wrong.

With the political antecedents of Walter N. Haldeman, we have nothing to do, and care less, so far as the obligations of employer and employee are concerned; and to bring these into the issue, shows a most pitiful lack of wit and good sense in shows a most pittin lack of wir and good sense in those who resort to it. The terrors of the Statutes of Kentucky are also held over us. Well, has the law made provisions as to the hours of going to work upon the Sabbath day? We should like to

The circular calls upon the laboring portion of the community to sustain these men against the combined influence of capital, and it tells you that you are trodden down by the scornful heel of the capitalist. We do not think that such is the case, fellow-citizens. We believe that the mechanic is fast rounding to the first position in sochannels has rounding to the first position in so-riety—a position that he should have long since occupied—and if there is anything that will re-duce the "artisan to a mere operatice," it will be just such actions and proceedings as have heen exhibited upon the part of those in the Printers' Union, who desire to alienate the feelings from that social intercourse between employer and em-ployee, which should obtain in every department of life.

of life.

To go further into the details of this matter would be imposing upon your indulgence. We close by saying that the whole thing, upon the part of the Union, has been a mockery. They have violated their own rules and regulations; descended to a low and degraded process of retaliation against men who have dared to do their duty and have not scrupled to vilify and misrepresent. We feel perfectly competent to maintain our integrity against such creatures. Some of us labored in the Union to persuade them of their error, and finding our efforts were ineffectual, we were not willing to subject ourselves to their control and dictation. oing that it will not be necessary to go further

JUDGE BOWLIN ACCEPTS. - The Washington

[Reported for the Louisville Courier.] POLICE COURT.

Monday, September 13. Charge of Figuring. Thos. Cochran and Jas. McClear were presented on the charge of engaging in a fight, on the wharf, and knocking each other days. In addition the state of t other down. In addition this, two or three others had a hand in the fray; but who commenced it, or who got the best, or the worst of it, no one could tell. One party was accused of fair play and the other of foul play, but having been in the watch house since Saturday night, they were let off on their own bonds to keep the peace 12 months.

DRUNK AND DISORDERLY.—Jas. Moran, sir, was up on the tripple charge of drunkenness, disornp on the tripple charge of drunkenness, disorderly conduct, and abusing the wife, a constant habit of his, and bail of \$100 was required for his

good behavior 3 months.

Charge of Assault.—Henry Holcomb, or Holencamp, was presented on the charge of committing a deadly assault on Philip Monn, at the United States Hotel. The latter testified that accused came at him, and after asking him about something he should have said in reference to spending twenty dellers or reverset the feet of the said in the said i twenty dollars or more at the Garden, he knocked him down, and cut him in the back of the head with a knife, he thinks. He also had a fight with Barney Coolman, who was duly sober, and Henry being tight, got the worst of it. He is said to be being ught, got the worst of it. He is said to be a remarkably quiet, peaceable man, yet it was in proof that he had two fights in one day, in addition to which, he had another fight with bad whisky, which makes three fights, and bail of \$200 was required that he shall keep the peace 3 nonths, and \$100 to answer a misdemeanor.

Bailed.—Wm. Leffey was bailed out of the

Bail of \$100 was required to answer.
Straling a Vest.—Geo. W. Johnson, a tall dark haired man, was arreigned on the charge of stealing a vest from Sproule & Mandeville, the fashing a vest from Sproule & Mandeville, the fash-ionable clothiers, corner of Main and Fourth streets. He was seen doing some tall walking away from the store and was followed by S. R. Hew-lett, a clerk in the store, who on coming up with him, spoke to him, and asked him to go with him, remarking that something appeared to be the mat-ter with his arm. He said it was broken, and just then something "despread" and another wit ter with his arm. He said it was broken, and just then something "drapped," and another witness picked up a vest, a black silk vest, said to be worth \$3, and identified as the property of Sproule & Mandeville. on the watchman. THE STABBING CASE-DRUNKENNESS, etc.-John and Thomas Jamison for stabbing John Donovan, were again presented, and Pat. Carter who was also implicated, had that charge dis-missed against him, but was presented for drunk-enness and disorderly conduct. The affair happened on the 9th, at a dance or ball, in a coffee-house on Market street, between Fifth and Sixth, and 12 or 15 witnesses called in to prove it. The first witness called said he was there, but knew nothing of the affair, excepting that a fight com-menced, when some fellow came in, blew out the light, and then witness went out, too. Itappeared, lowever, that the two Jamison's and others were hem off of the wounded man. The par selves in, and commenced a row. A chap name of Johnson blew the lights out, and had a hand in the fray. There had been a raffle before the music and dancing, mixed in, no doubt, with a good deal of mean whisky. Officer Seay went in and arrested some of the parties, including John Jamison, who had a big pocket knife. Pat. Carter had interfered in the arrest, trying to ge the Jamisons away, saying they had no hand

There have been, for several days past, rumor of a probable hostile meeting between two prominent Republican editors of Indiana, who had ad ourned their quarrel to this city. As far as we learn the facts, they are briefly as follows: Mr. Lingel, of the Lafayette Courier, charged Mr. Ter-rell, of the Lafayette Journal, with having originated a calumnious story against him, nounced him in a card. I am aware, sir, of your social position other side of the river—of your ambition to in-trude yourself upon the society of the F. F. DANCING ACADEMY .- We invite special attention to the card of Mesdames Blaique and Hunt. who open this week their dancing academy at the Masonic Hall. These ladies are accomplished teachers, and possess admirable qualifications for giving to young misses and masters all the graces and accomplishments. Madame Hunt has ust returned from the city of New York. There she became acquainted with several new and beautiful dances, which she intends introducing to the Louisville public

In order that one may appear in society with due effect, and never be subjected to the sneers and ridicule of the world, it is essential that the lighter accomplishments should be cultivated. It is this: When he gives purses he would certainly lose money if he charged the insignificant sum of a quarter. But when there are match races alone, that is the admittance at the gate. There has been some dissatisfaction in relation to this matter heretofore, which Captain Travis' explanation removes. He is endeavoring to restore the racing fame of Oakland, and he has our best wishes for success.

-We were pleased to see, a few days since, our old friend, Thos. P. Jacob, Esq., who has just returned from a year's tour in Europe. Mr. R. A. Curd reached Boston yesterday, in the Liverpool steamer, having been absent in the Old World

during the past summer. -Col. Chas. A. Fuller has been detailed by the war department to superintend the improvements of the south-west pass of the Mississippi. He will remove with his family, about the 1st of Novemher to Pass Christian, where he intends residing -Col. Thomas H. Helt has returned to the city

not having proceeded to California as he contemplated. He was successful in arranging his business in New York, and consequently not necessitated to visit the Pacific coast.

-A new post office has been established at the Jeffersonville railroad

-One of our heavy hardware dealers received resterday an invoice of goods from Sheffield, the dollars.

-Karl Formes, the celebrated basso singer, will visit this city in October. THE HOG AND CORN CROP .- We have been furnished by a mercantile friend with additional intel-

ligence concerning the hog and corn crop in Ohio. In this State there will be a small crop of the porkers into monsters. The following are extracts from Ohio letters: Springfield, Sept. 10.

There have not been many hogs shipped to the East. More raised this year than last. Good corn crop if frost does not appear within ten

XENIA, Sept. 9. The corn crop will be one-third less than an average. There is a full average of hogs, but owing to a good market and fair price for corn, the amount of pork will be below an average.

WILMINGTON, Sept. 9. The corn crop will be better this year than last The quality of the hogs is better this year than I ever knew, though I think the number is hardly

We are informed that there will be another meeting of the Executive Committee of the State Agricultural Society, to-morrow, at the rooms of the Society in this city, over Blanchard's store, corner of Main and Second streets. The committee will, in the course of the day visit the fair grounds, appoint subordinate officers, and complete arrangements for what promises to be one of the largest and best exhibitons ever made n Kentucky or any other State.

THE BRIDGE AT COVINGTON .- The work on the Covington tower of the Ohio suspension bridge, is progressing satisfactorily. It has been carried up to a hight of about sixty feet above low water mark Two or three more courses of stone will be laid There will be a match running race, one mile and which will place the top above high water mark, repeat, over the Oakland Course, this evening, at after which work will be resumed on the Cincin 4 o'clock, between J. Arnold's sorrel, and W. nati tower, and prosecuted until cold weather

REPORTED SUICIDE.—We heard last evening, bu were unable to trace it to an authentic source that a gentleman of this city was found dead with his throat cut, on the Harrod's Creek plank road yesterday. From the fact that his watch, money and papers were found on him, and that he had left home the day previous under a tempo rary sherration of mind, it is presumed that he took his own life. Such is the report.

SNATCHING A WATCH .-- A merchant from New Orleans, about 11 o'clock last evening, while standing near the postoffice was asked by a check-shirted stranger the time of night; he drew his watch to take "note of time," and politely responded to the inquiry, when the fellow snatched his watch, fled and made his escape. The watch was very valuable.

The Railroad Convention at Philadelphia last week fixed the price of fare at \$22 50 from Louisville to New York. Freight between the same cities, first class, is fixed \$1 45 per hundred. The new arrangement takes effect on September 21st.

GREAT SALE AT MOUND CITY .- The next sale of lots in the flourishing Mound City will take place on the 23d inst. Some very valuable property will be disposed of, and there will be an unusually

phy played eight games of chess blindfolded at the chess congress, Birmingham, England, and won all but one. Morphy is uncon quered and unconquerable. RECOVERING .- John Donovan, who was stabbed

s said to be in a fair way to recover. CHILDREN OF THE SUN .- The marvelous feats of these wonderful people will be repeated to-night

E. O. NORTON, Agent. CHILLS! CHILLS! CHILLS! HUGHES'S TONIC is purely vegetable in its composition, and will be found peculiarly adapted to the cure of Chills and Fener in all cases, and particularly so in delicate females and children. In nervous and debiliin delicate females and children. In nervous and debilitated constitutions, caused by ague and other malarious diseases, it will be found of decided benefit by counteracting any nervous derangement, and by giving tone to the Stomach and Liver, thereby restoring the system to its natural vigor. In its effects it differs from Quinine in producing no headache, giddiness, nausea, or any other unpleasant sensations whatever. Testimonials of its efficancy can be seen at our store at any time.

FENCING The Best Gymnastic Exercise both for Men and Youths.

THE ART OF FENCING. FENCING is the art of using a weapon skillfully, both for attack and defence, in accordance with certain established rules. Florests or Foil fencing has for its for attack and defence, in accordance with certain stablished rules. Florests or Foil fencing has for its pecial object the proper use of the rapier or broadword, and is the most conductive of all gymnastic exercises to the acquirement of a quick eye, a skilful hand, and an active, athletic body, and gives great facility in he use of all other weapons, such as the Broad-sword, aance, Bayonet, Quarterstaff, and likewise in Boxing. The subscriber, formerly a pupil in one of the most elebrated military academies in Europe, has been horoughly educated in this system, and is conversant ith all other methods, as taught by the most distinuished masters in Europe; he is therfore fully compent to impart quickly and correctly this elegant accomplishment to all who may place themselves under his attom. Having been appointed teacher of fencing in the well known Military School of W. H. Russell, of ew Haven, and from the Board of Visitors and his acclinacy the Governor appointed Professor of Arms, a the South Carolina Military Academy at Charleston, and of the first regiment of Virginia and 30th Regiment of North Carolina militia, and having also the most flatering testimonials from His Excellency, Gov. Seymour,

wing testimonials from His Excellency, Gov. Seymour, es begs leave to announce to the public that he has beened a fencing academy, where he give lessons in the tof fencing with the Small Sword, the Broad Sword Sabre, and likewise in the use of the Lance and Baynet. The age most suitable for pupils is from nine cars and upward.

In teaching the Art of Fencing to Juveniles, Lance shet. The age most striable for pupils is from nine years and upward.

In teaching the Art of Fencing to Juveniles, I have adopted the well known system of Gymnastics of the celebrated Professor Linge. By this system the youths will require a noble carriage, and easy, natural step, and genteel manners, and at the same time it will accomplish and strengthen the body. It is well known that in a strong body there is generally to be found a strong soul; and young men will soon find out the advantages they enjoy in the possession of a strong, sound body. The usefulness of this system is so evident that is scarcely needs a further recommendation.

He would call call the special attention to the military companies of Louisvillo to the new tactics of the Bayonet exercise.

It sifords us great pleasure to announce that we have received of Mesers. Chickering & Sons the SOLE AGENCY in the STATE OF KENTUCKY for the sale of their world-renowned Plano Fortes, and that we have just opened and have ready for inspection the most superb assortment of their instruments ever brought to the west, embracing magnificent Full Grands, Parlor Grands, and Squares, of truly exquisite tone and finish. These are the first of their instruments with the new scale that have been sent from their factory, and are very far superior to their old scale or any instruments this celebrated firm has yet made.

It is unnecessary for us to speak in commendation of them, as the prominent position and unbounded popularity they have so long enjoyed affords unanswerable arguments in favor of their worth and merit.

We extend to the profession and all who feel interested, a cordial invitation to call at our warerooms and examine them.

The proprietor, in calling the attention of the public to his preparation, does so with a feeling of the utmost confidence in its virtues and adaptation: a the diseases for which it is recommended.

It is no new and untried article, but one that has stood the test of a ten years' trial before the American people, and its reputation and sale is unrivalled by any similar preparation extant. The testimony in its favor given by the most prominent and well-known Physicians and individuals in all parts of the country is immense, and a careful perusal of the Almanac, published annually by the proprietor, and to be had gratis of any of his Agents, cannot but satisfy the most skeptical that this remedy is really deserving the great celebrity it has obtained.

DENTAL SURGEONS,

HAVING had the advantage of a thorough Dental education, offer their Professional services to the citizens of Louisville and vicinity. Dr. Fitz's skill in Mechanical Dentistry can be seen at their office, specimens of which took the first Premium and Diploma at the United States Fair in 1837. Dr. Wilson has been treating aching teeth successfully for the last five yerrs by destroying the nerve without pain, filling the fangs and crown with gold, restering the tooth to its natural shape, and making it as useful as before decay. Do not have your teeth extracted until you are certain they cannot be saved.—More than fifty per cent. of the teeth usually extracted can be made useful through life. We are daily treating and filling teeth of this class that comes in to be extracted. In mo case do we disfigure a tooth by filing to fill it, using other and better means than the indiscriminate use of the file. Any tooth can be filled with gold that is worth filling at all. We use, when requested, a local anesthesia to prevent pain in extracting teeth. All operations warranted as represented, and terms as liberal as any good Dentist can afford.

N. B.—Call and have your teeth examined and our advice gratis. Office on Fifth street, next door to auge 6 dly the Cathedral, Louisville, Ky.

KENTUCKY CITY

is located on the east bank of the Mississippi river, twenty miles below the mouth of the Ohio river, at the first eligible highland, and in point of fact, being the mouth of the Ohio river; surrounded by a high, tealthy, and fertile country, rapidly growing in west h and population, with a salubrious climate, generous, deral and enlightened society. There wanted but one author feature to make this the most commanding point on the "great Father of Waters"—this want was an uninterrupted and general outlet to the interior, so as to accommodate the interchange of commodities. That want is now fully met by the established system of RAILROADS,

and takes of the North and East, and ramifying through-out the South and West.

That the public may not be led off by suspicious that this is a mere city upon paper, we request you to en-quire—to come and see for yourselves.

which has fixed Kentucky City as the center of a net-work of railroads stretching out and affording connect-ions in all directions with the interior and with the cities and lakes of the North and East, and ramifying through-out the South and West.

Intelligent, enterprising and practical men who will come and see and investigate in person, will be convinced that the extraordinary commercial advantages and facilities of railroad and steamboat transportation possessed by Kentucky City secures to this point requisites for manufacturing and commercial purposes, which must, of necessity, cause it apeedly to become the great intermediate city between the NORTH and the SOUTH, at which the productions and manufactures of each section will be concentrated for sale, or to be exchanged for those of the other.

The Hon. Post-Master General, in a recent report, says: "No man can look at the map of this country without his eye finally resting on the mouth of the Ohio as the center of population and commerce of the United States."

The sale is to be made without reserve and in good faith, and there will always be a reliable gentleman on the ground whose pleasure and duty it will be to give all needful information, and answer all written or oral interrogatories. Then let no one permit himself to be led off by rumor, when the facts are so accessible to all.

Sale to commence Monday, September 27th, 1853, and continue until all the Lots, numbering upwards of four hundred, are sold.

THE RIVER continues to recede regularly at this point, and in fact all along its course, with only two feet water in the canal by the mark. This will enable boats drawing scant three feet to rub through with the power of steam, and if the can pass that chute, they can easily reach Cincin ati or Carro, as the much abused ditch new is a deeper channel than can be found on the sand bars. The weather is clear and pleasant for the season, though remarkably cool yesterday morn-

We have a permanently established ourselves for the manufacture of Files and Rasps. We invite merchants and consumers, especially those who want to buy and sell a superior jarticle, to an examination of our stock. We have 5,000 dozen of hand-saw Files, mill-saw Files, and Bastard, second-cut and smooth, dead smooth, and sell them at reasonable prices at wholesale and retail. We are assured, from the custom we have now, that in two years Kentuckians will not call for any other Files but ours, and so in neighboring States. We also recut Files for a little more than half the price of a new one. We warrant both old and new Files. m25 dly

PREMIUM PIANOS, Manufactured by him. A splendid assortment constantly on hand.

Our Pianos have received a Premium two years in succession, 1856 and 1857, at the Fairs of the American Institute, Crystal Palace, in competition with most of the leading manufacturers of New York and Boston, and are unquestionably of the best quality of tone, full, round and brilliant, as well as finish and durability, and we flatter ourselves, by the approval of renowned artists, in venturing to say that our Pianos stand superior to many others, and equal to any Grand Piano in regard to volume of tone and elasticity of touch, combined with the greatest firmness, which is very rarely net with in other Pianos.

We respectfully solicit an examination from strangera and friends, to convince themselves of the above before purchasing elsewhere. All our Pianos are warranted.

NOTICE OF RENEWAL OF COPY
RIGHT.

THIS is to make known to all whom it may concern
that I did, on the 24th day of August, 1858, apply
for and obtain from the Clerk's office of the District
Court for Kentucky, a renewal of the copy-right, for
the term of fourteen years, of my book entitled "Gunn's
Domestic Medicine, or Poor Man's Friend," for which I
heretofore, on the 30th day of August, 1830, obtained a
copy-right in the U. S. District Court for the District of
Tennessee, at Knoxyille, and to forbid all persons from
interfering with the same and my rights in the premises,
